

ForwarderOne - China to Amazon FBA USA Checklist

Last reviewed: 2026-06-04

Use this checklist before supplier pickup. Keep one copy with your quote request and one copy with your Amazon shipment files.

1. Product and supplier data

- Product name, material, intended use and photos.
- HS code if known, declared value, quantity and country of origin.
- Battery, liquid, cosmetic, hazmat or regulated-product notes.
- Supplier address, contact, cargo-ready date and pickup hours.

2. Cartons and cargo data

- Carton count, gross weight, dimensions and CBM.
- SKU quantity per carton and whether cargo needs consolidation.
- Product photos and packing list that match the physical cargo.

3. Amazon FBA shipment data

- Amazon shipment ID and destination fulfillment center.
- FBA box labels, unit labels or manufacturer barcode confirmation.
- Carton-level details, split destination notes and pallet requirements.

4. Mode and deadline

- Target delivery window, launch date, sales velocity and stockout risk.
- Compare express, DDP air, DDP sea LCL and FCL when available.
- Confirm whether the quote is planning only or ready to book.

5. Importer and DDP scope

- Who supplies importer data, product documents and HTS support.
- Whether duties, taxes, brokerage, customs clearance and final delivery are included in the quote.
- Named exclusions: exams, storage, demurrage, detention, waiting time, redelivery, remote delivery and Amazon rejection.

6. Final delivery to Amazon

- Appointment handling, delivery address, warehouse references and labels.
- Pallet/carton delivery rules and whether delivery is door-to-FBA.
- Buffer between delivered cargo and inventory becoming sellable.
